I tried to add it to session, but I got this error: The candidate GnomeFlashback is already a running session A: I believe there's no way to start a classic Gnome session inside of the Gnome Flashback. I'd suggest either removing Gnome Flashback from your session if you wish to keep using it, or switching to another desktop environment. If you wish to keep Gnome Flashback, I'd recommend using Gnome 2 or Gnome 3. It appears that there is a difference in Gnome Flashback's functionality when compared to regular Gnome 3.
